

Adrian Aghaie

Industrial Design.

Professional summary:

With over a year of professional experience, I've been lucky to work on several different projects in a range of different professional settings. Each role in my career has built my knowledge as a designer. I enjoy working in a collaborative setting and being a team player to help achieve the companies overall goals.

Work experience:

CoverCraft - Automotive soft goods designer. May 2025 - Present.
Los Angeles, CA.

- Creating seat patterns for the Seat Savers product line.
- Future product innovation research and ideation.
- Innovative materials research and sourcing, presenting findings to upper management.
- Daily meeting with cross functional product development teams to organize and track product completion timelines.

Ringo - Industrial designer, Contract. May 2025 - Present.
Los Angeles, CA.

- Creating product renders and animations for key stake holders as well as product visualization for the Ringo website.
- Conceptualizing new ways for users to interact with Ringo water bottles.
- Mood boarding new visual styles and trends.

SHP - Junior Industrial designer, Contract. Aug. 2024 - Feb. 2025
Los Angeles, CA.

- Successfully created new stock innovations for SHP.
- Helped in creating several high end renders for industry tradeshows.
- Successfully presented completed design briefs for several major cosmetic brands.

ClearVision Optical - Industrial design intern. April 2024 - Aug. 2024
Remote.

- Created roughly 63 low-poly models in blender, used for adding to glasses frames prior to production.
- Supported the team in preparing frames for 3D printing production.
- Assisted in setting up a parametric workflow within Blender for generative design.

Klein Tools - Industrial design intern. March 2022 - May 2022
Lincolnshire, IL.

- Conducted design research brainstorming with cross functional teams.
- Worked on concept development for a wide range of Klein Tools SKU's such as the ModBox Dual Beam LED work light.
- Sketched several graphics for several product SKU's and finalized in Adobe Illustrator.

Education:

San Jose State University
